1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr Cox on **Oct 27,2005.

In claim 19, on line 4, --,first,-- has been inserted after " moving ". On line 8, of claim 19, --,second , -- has been inserted after "moving".*.

The changed were made to claim 19 so that proper antecedent basis would be given to the first and second moving steps recited in claim 20.

2. The following is an examiner's statement of reasons for allowance: The claims have been allowed because applicant has antedated the reference to Black Jr. et al by the 131 affidavit. As such, claim 1 recites the vending machine having a bi-directionally movable gate where a drive device reverses by a switch to cause the gate to move in a second (reversed) direction. Claim 9 also recited the essential matter of claim 1 that the motor for the gate would drive in the reverse direction. Claim 14 also recites the essential matter of claim 1 along with the raising of the gate to prevent articles from passing the gate. Claim 19 recites a method of vending articles where there is the moving, first, a gate into operable alignment with an article disposed upon an inclined surface. There is the allowing of the article to pass the gate and thereby actuate a switch. There is the moving, second, of the gate responsive to the actuation of the switch into blocking relationship with another article . .
